JOALI

For guests' safety the hotel is implementing the below measures:

- All tourists are required to hold a negative result for a nucleic acid test (PCR test) for COVID-19 prior to entry into the Maldives. With the new change, PCR test result will be accepted if the time frame between the scheduled time of departure from the first port of embarkation en-route to the Maldives and the time of sampling does not exceed 96 hours. Children under one year old are exempted from this test.

- The PCR test document containing the test result should state the name of the passenger (name as in passport), name and address of the testing laboratory, type of test stated as PCR test, date of sampling and test result.

- On arrival, all our guests will undergo the RT-PCR test (rapid Covid-19 test) on complimentary basis and will get the result within 20 minutes.

- For guests arriving from other resorts, we require a negative PCR test done with a maximum 48 hours prior to transfer.

- It is still mandatory to complete the online health and safety questionnaire. This has to be completed within 24 hours prior to arrival in the Maldives. This questionnaire can be found here: https://imuga.immigration.gov.mv/

- Should you require PCR test on your return back to your country, our doctor will take the sample here in our island and we will bring the sample to Maafaru International Airport for the PCR testing. Results will be issued within 24 hours approximately. Rate is USD 75 net per person. Speedboat is complimentary.

- For any guests who cannot travel due to a Covid-19 related issue, we will allow to amend travel dates and use the credit for up to one year for any dates except Festive, 22 December – 10 January. We will require copies of documentation showing the reason travel is no longer possible.
